09/17/5036

Dear New InfiniCorp Team Member:

Welcome to Kevlo's largest public corporation! We hope you will join us for a New Team Member Orientation Session on Tuesday 10/01/5036. As you will be joining our Greater Moon Lunar Research Facility, this orientation will provide you with the key information you will need to quickly become a productive member of our Interplanetary Opportunity Exploitation Team.

As you will be joining our Lunar Operations division, you will report to Fred Beeker once you get to your final assigned location. If you pass the initial safety tests, you will join our elite team on 10/15/5036, lifting off from the InfiniCorp Commercial Spaceport in Merrytowne, WP. Our elite fleet of Orbital Cargo Transports will take you to your new assignment in the company of Captain Reinstone Carpenteria.

We look forward to working with you, the newest additions to the finest team on the planet... and off it, too!

Sincerely,

**Rachel Phule
Vice President of Human Resources**
